How We Did It?

- I met with the online learning (OL) office staff to discuss what the library wanted and heard what was possible to do in the software (both technically and contractually)
- The OL office then created mock versions that we tested
- Modifications were made
- New custom tabs went live (Fall 2007)

The Future

- Continue to test out online reference appointment feature
- Add a chat qwidget
- Utilize the repositories
 - Pre-class questionnaire
 - Library documents for copying to faculty courses
